# Fundraiser Candles

A quality candle with purpose. White Clover candles are hand-poured on our family farm in York, Pennsylvania. We use 100% soy wax, zero chemical additives, and phthalate-free fragrance oils. We are second-generation candle makers who create our candles with care and attention to detail every week in small batches. They burn evenly and smell so incredible! For small family farms like ours, we need to diversify our products to keep our farm sustainable, especially during slower seasons. By choosing White Clover for your fundraiser, you help preserve beautiful farmland!

# Color Options

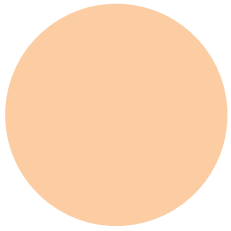

We sell our candles at the stand dye-free (white in color) to keep them as natural as possible. If you do not indicate a color on your order form, your candles will be white. Please note that we are unable to create dark colors as the amount of dye needed to achieve it can create issues when burning. All of our candles are hand-poured in small batches so there may be color variation between batches. Keep in mind the colors will be light in depth.
